ⓘ highlight text to tag it

1. **Overview:** A text based streamlined MMA management game for mobile.

- 1. Take on the role of a MMA manager in the modern fight business.
- 2. Manage your gym and build your fight team from the local scene to the heights of managing world champions in the top promotions.

2. **Location:** Great Britain

3. **Company Size:** 2. Around 940 AI fighters.

4. **Devices:** Mobile App (Android, iPhone, iPad)

5. **Website:** <http://www.mmamanagergame.com/>

6. **Features:**

- 1. Recruit fighters from multiple weight classes and hire coaches to train them.
- 2. Negotiate with leagues, book fights, and guide your fighters up the ranks to win titles.
- 3. Wide range of procedurally generated fighters with differing appearances, skills, stats, martial arts backgrounds, records and personalities. Fighter appearances can vary in hair styles, colours, tattoos, skin tone, facial hair and cauliflower ears.
- 4. AI Fighters will age out, fight each other and move up and down the rankings.
- 5. Fully Simulated player fighters and personalities including greed, happiness, bad habits and career goals.
- 6. Manage your fighters’ careers, keep them happy but remember you can always get rid of them.
- 7. Complex fight simulations with a huge number of possible combinations of action that can make up each fight.
- 8. Corner fighters and influence key moments in the fight.
- 9. Different martial arts styles affect what techniques fighters can use. Fighters can learn new styles from their coaches.
- 10. Deal with issues like missing weight, injuries, and PEDs.
- 11. Upgrade and equip your gym with the best equipment to compliment your coaches.
- 12. Upgrading premises

13. Buying equipment

14. Managing income/outgoings

15. Recruitment

16. Training

17. Choose game plans for fights that play out narratively (combination of a text adventure being decided by the AI and play by play write ups of actual MMA matches).

7. **Strengths:**

1. Available for Android and iPhone

8. **Weaknesses:**

1. Outdated UI

2. Mobile only
